

1. Create a basic webpage titled “My First Web Page”. Inside the <body>, display your full name as a main heading (<h1>) and write a short introduction paragraph about yourself.

```
1  <!DOCTYPE html>
2  <html>
3  <head>
4    <title>My First Web Page</title>
5  </head>
6  <body>
7    <h1>Gungun Gautam</h1>
8    <p>
9      Hello! My name is Gungun Gautam. I am passionate about learning new technologies
10     and exploring the world of web development. I enjoy coding, designing creative websites,
11     and continuously improving my skills to build innovative projects.
12   </p>
13 </body>
14 </html>
15
```

2. Add a hyperlink (<a>) to Google with suitable link text. Make sure the link opens in a new tab.

```
<a href="https://www.google.com" target="_blank">Visit Google</a><br>
```

3. Insert an image () of your favorite cartoon or animated character. Include an alt attribute that clearly describes the image.

```

```

4. Write a paragraph describing your favorite hobby. Use to make one important word bold and to make another italic.

```
<p>My favorite hobby is <strong>painting</strong>. It allows me to express creativity and relax my mind while experimenting with  
<em>colors</em>.</p>
```

5. Create a paragraph with two sentences, but separate them using a line break (
) tag.

```
<p>I love learning new programming languages.<br>This helps me improve my problem-solving skills.</p>
```

6. Use the <blockquote> tag to display a meaningful quote and mention the author’s name using <cite>.

```
<blockquote>
  "The future belongs to those who believe in the beauty of their dreams."
  <cite> Eleanor Roosevelt</cite>
</blockquote>
```

7. Demonstrate different heading levels by adding:

- <h1> for your name,
- <h2> for your role (student/profession),

- <h3> for your hobbies or interests.

```
<h1>Gungun Gautam</h1>
<h2>Student</h2>
<h3>Hobbies: Reading, Coding, Drawing</h3>
```

8. Write a paragraph containing:

- A highlighted word using <mark>
- A small note at the end using <small> (e.g., “Updated recently”).

```
<p>My favorite subject is <mark>Computer Science</mark>. It helps me understand how technology works. <small>Updated recently</small></p>
```

9. Create a paragraph that uses both and to emphasize different parts of a sentence.

```
<p><strong>Hard work</strong> and <em>consistency</em> are the keys to success.</p>
```

10. Display a line of inline code inside a paragraph using the <code> tag.

Example: show how to print “Hello World” in JavaScript.

```
<p>In JavaScript, you can print a message using <code>console.log("Hello World");</code></p>
```

11. Write a paragraph that contains three elements — use them to highlight or label different parts of the text (you can imagine colors or meanings).

```
<span>[Important]</span> Always write clean code.
<span>[Tip]</span> Comment your code for clarity.
<span>[Note]</span> Practice regularly to improve.
```

12. Create a creative paragraph combining multiple inline elements (, , <mark>, <small>,
) to demonstrate inline formatting.

```
Learning web development is <strong>fun</strong> and <em>rewarding</em>.<br>
Remember to <mark>practice daily</mark> and keep exploring new concepts.<br>
<small>Last updated: October 2025</small>
```

13. Build a small webpage with a <header> section that displays your website name or title using an <h1> tag.

```
<header>
  <h1>My Personal Website</h1>
</header>
```

14. Just below the header, create a `<nav>` section containing three links — Home, About, and Contact. Links can use `#` as placeholders.

```
<nav>
  <a href="#">Home</a> | <a href="#">About</a> | <a href="#">Contact</a>
</nav>
```

15. Create a `<main>` section containing one short paragraph introducing who you are and what the page is about.

```
<main>
  <p>Hello! I am Gungun Gautam, a student interested in web development. This page introduces who I am and what I do.</p>
</main>
```

16. Inside `<main>`, create a `<section>` titled About Me, with one descriptive paragraph.

```
<section>
  <h2>About Me</h2>
  <p>I enjoy creating web pages and exploring how websites function. I aim to become a full-stack developer in the future.</p>
</section>
```

17. Still inside `<main>`, add an `<article>` with a heading “My First Blog” and a short blog-style paragraph.

```
<article>
  <h2>My First Blog</h2>
  <p>Today I built my first webpage using HTML. It feels great to see my ideas come to life on the screen.</p>
</article>
```

18. Add an `<aside>` element titled “Useful Links”.

Inside it, include one or two hyperlinks (for example, your portfolio or favorite websites).

```
<aside>
  <h3>Useful Links</h3>
  <a href="https://www.google.com" target="_blank">Google</a><br>
  <a href="#">My Portfolio</a>
</aside>
```

19. At the bottom of the page, create a `<footer>` that includes copyright information (e.g., © 2025 [Your Name]).

```
<footer>
  <p>© 2025 Gungun Gautam. All rights reserved.</p>
</footer>
```

20. Combine all the above structure into one complete webpage — use `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<aside>`, and `<footer>`.

Code:-

```
1  <!DOCTYPE html>
2  <html>
3  <head>
4    <title>My First Web Page</title>
5  </head>
6  <body>
7
8    <!-- Header Section -->
9    <header>
10      <h1>Gungun Gautam</h1>
11      <h2>Student</h2>
12      <h3>Hobbies: Reading, Coding, Drawing</h3>
13    </header>
14
15    <!-- Navigation Section -->
16    <nav>
17      <a href="#">Home</a> | <a href="#">About</a> | <a href="#">Contact</a>
18    </nav>
19
20    <!-- Main Section -->
21    <main>
22      <p>Hello! My name is Gungun Gautam. I am passionate about web development and learning new technologies. This webpage is a small demonstration of basic HTML elements.</p>
23
24      <!-- Section: About Me -->
25      <section>
26        <h2>About Me</h2>
27        <p>I am a student who loves creating websites and learning how the internet works. I enjoy exploring both design and coding aspects of development.</p>
28      </section>
29
30      <!-- Article: My First Blog -->
31      <article>
32        <h2>My First Blog</h2>
33        <p>Today, I created my first HTML webpage! It was exciting to combine different tags and learn how a browser displays them together.</p>
34      </article>
35
36      <!-- Aside: Useful Links -->
37      <aside>
38        <h3>Useful Links</h3>
39        <a href="https://www.google.com" target="_blank">Visit Google</a><br>
40        <a href="#">My Portfolio</a>
41      </aside>
42
43      <!-- Image and Hobby -->
44      <h2>My Favorite Cartoon</h2>
45      
46      <p>My favorite hobby is <strong>painting</strong>. It allows me to express creativity and relax my mind while experimenting with <em>colors</em>.</p>
47
48      <!-- Paragraph with Line Break -->
49      <p>I love learning new programming languages.<br>This helps me improve my problem-solving skills.</p>
50
51      <!-- Blockquote -->
52      <blockquote>
53        "The future belongs to those who believe in the beauty of their dreams."
54        <cite>Eleanor Roosevelt</cite>
55      </blockquote>
56
57      <!-- Paragraph with Mark and Small -->
58      <p>My favorite subject is <mark>Computer Science</mark>. It helps me understand how technology works. <small>Updated recently</small></p>
59
60      <!-- Paragraph with Strong and Em -->
61      <p><strong>Hard work</strong> and <em>consistency</em> are the keys to success.</p>
62
63      <!-- Paragraph with Inline Code -->
64      <p>In JavaScript, you can print a message using <code>console.log("Hello World");</code></p>
65
66      <!-- Paragraph with Span Elements -->
67      <p>
68        <span>[Important]</span> Always write clean code.
69        <span>[Tip]</span> Comment your code for clarity.
70        <span>[Note]</span> Practice regularly to improve.
71      </p>
72
73      <!-- Creative Paragraph with Inline Elements -->
74      <p>
75        Learning web development is <strong>fun</strong> and <em>rewarding</em>.<br>
76        Remember to <mark>practice daily</mark> and keep exploring new concepts.<br>
77        <small>Last updated: October 2025</small>
78      </p>
79    </main>
80
81    <!-- Footer Section -->
82    <footer>
83      <p>© 2025 Gungun Gautam. All rights reserved.</p>
84    </footer>
85
86  </body>
87 </html>
```

Output:-
